SKILLS

HTML   CSS   JAVASCRIPT   PYTHON   DSA

OOPS   TEAM MANAGMENT   PROBLEM SOLVING

WEB DEVELOPMENT

PERSONAL PROJECTS

VEGETABLE SHOP LANDING PAGE (03/2024 - 04/2024)
- I crafted a responsive landing page for a vegetable shop using HTML for structure, CSS for styling, and JavaScript for interactive elements like image sliders and contact forms.
- Employed media queries for mobile responsiveness and optimized the code for fast loading times.

BASIC CALCULATOR (08/2023 - 09/2023)
- Completing a basic calculator project demonstrates proficiency in programming fundamentals, problem-solving skills, and the ability to create functional software.

Heart Disease Prediction using Machine Learning with Python (11/2022 - 12/2022)
- In my heart disease prediction project, I coded the implementation of machine learning algorithms in Python using libraries such as scikit-learn and TensorFlow for model training and evaluation.
- I utilized techniques like data preprocessing, feature engineering, model selection, hyperparameter tuning, and cross-validation to develop accurate predictive models.
